

Pamir Web Hosting.

At Pamirwebs.com, we understand that our customers' websites are **"mission critical."** Pamir Webs provides

state-of-the-art "load-balanced"

Web hosting platform to ensure

maximum uptime

. Pamir Webs Services was founded in 2006 and has established a leadership position in the "low cost" Web hosting industry by meeting the needs of small-to-medium sized businesses.

Pamir Webs is one of the few Web hosting companies that stands on our own two feet. **We develop our own custom Web hosting software and automation**

tailored directly to our customers' needs. Our

entire infrastructure was built and developed in-house by our programmers and developers

to cater to our

satisfied

customers. We manage, own and operate our entire network and all of our equipment.

Today, Pamir Webs remains unbeatable in terms of **reliability**, **quality**, and **performance** in the Web hosting industry. By continuing to listen to our customers, we continue to learn, grow and evolve our business into the

#1 choice for Web hosting!

Pamir Webs Uses Datacenters in 5 Geo-graphical location:

Washington, DC

Dallas, TX

Clifton, NY

Scranton, USA

Hausham, Germany

Servers are from Peer1, SoftLayer, Burst Inc. and more.

Our Vision: What We Believe

We believe that our success is due to our profound technical expertise and unmatched quality of customer care. We strive to build personal relationships with our customers. We believe in treating every customer with the same respect, caring and honesty that we would with our personal friends.

Although we keep our traditional business values, we are not afraid of changes. We have always been early adopters of new technologies. We continuously explore new and innovative solutions to keep our customers up to date on technology.

We believe that establishing a successful world-class web presence should be easy and affordable. We strive to improve our customers success by providing the best reliable and consistent tools and services at affordable prices. We are giving hosting packages for affordable price, for very cheap prices!

Why choose Pamir Webs : What Makes Us Different?

Our prices are competitive, with no hidden costs that you may find with many other service providers. We do not hide our real prices using some marketing techniques. Many hosting service firms are misleading. For instance, a firm, let us call it "Host A", is advertising on their front page that their medium hosting plan is starting at \$3.95 a month without any setup fee. But a careful examination reveals that you get the \$3.95 a month deal only if you sign up for 2 years and pay the whole fee in advance. If you want to sign up monthly and pay monthly, then your payment is \$7+ per month with a setup up fee of \$50..!

Customer satisfaction is our number one priority. We are proud of the fact that our growth is largely driven by word of mouth through happy clients. We are not one of the companies that only rely on aggressive marketing campaigns. We offer full-featured, great quality hosting packages, that include everything you need to succeed on the Internet at an affordable price. Our partnership with one of the largest ICANN-accredited registrars has allowed us to offer affordable and safe domain name registrations as well. We understand that like us, every entrepreneur looks at getting the best service at the most cost effective prices. Therefore, we try to provide exceptional quality web hosting and domain registration services to all our clients at unbelievable prices.

With Pamir Webs you can depend on:
