

Blackdialer Issue Resolved

Tuesday, 25 October 2011 06:12 -

Hello Valued Customer,

We confirm that the blackdialer3.0.5 block issue which we faced earlier in some countries is completely resolved now.

We Thank you for your patience and co-operation.

We confirm that the below product is WORKING now in all countries.

Blackdialer - A new version (3.0.8) download is required from the following link

<https://www.blackdialer.com/download.php>

We also strongly recommend upgrading to **KwickConnect** (<https://www.kwickconnect.com>) for the best quality.

Any question or contact? please email us to custserv@pamirwebs.com
