

1LegCall, ZoneFone and FoneFamily Mobile dialers have been updated to work with either low bandwidth conditions or the Oman Narwas network. There is no need for a fresh install. Just simply restart the dialer and it will use new settings. Here is the new arrangement of dialers. Please note the following:

LOW BANDWIDTH DIALERS for all countries and Du Network in UAE: We confirm that the below products are

WORKING VERY WELL

under low bandwidth conditions and the Du network in UAE with same great quality:

::: **1Legcall** -

Confirmed working with excellent quality

under low bandwidth conditions and the Du Network in UAE.

::: **Fonefamily** -

Confirmed working with excellent quality

under low bandwidth conditions and the Du Network in UAE.

Oman Narwas Network Dialer:

We confirm that the below products are

WORKING VERY WELL

on the Narwas Network in Oman.
